

NATIONAL REPRESENTATIVES

The STAR Board has appointed the following national representatives to acquaint colleagues in their respective countries with our organization. Please feel free to contact them if you have ideas on how to recruit new members into the organization. If your country does not have a national representative and you would like to suggest someone (including yourself), please contact STAR.

STAR is a multidisciplinary, international organization of researchers who share an interest in problems of stress, coping and anxiety. Through its conferences, networks, and publications STAR enables a constructive dialogue and supports international cooperation. Its members, from all parts of the eastern and western Europe and many parts of the world meet annually to exchange research findings and clinical applications on a wide range of stress and anxiety related phenomena.

CONFERENCES

STAR organizes an annual conference providing a unique opportunity to learn, not just about stress and anxiety but also how psychology is studied and practiced throughout the world. STAR has been exceedingly active in providing an opportunity to share research and clinical findings in an international forum. The meetings are a platform for major addresses by internationally known scholars, paper and poster sessions, and workshops. The conferences are relatively small, with approximately 150 to 200 participants, which mean that close collegial relationships are easily established. Because there is, typically, a high rate of attendance by STAR members, these contacts are readily maintained. STAR was founded in Leiden, The Netherlands, in 1980. Since 1981, yearly meetings have been hosted by STAR members in some of the world most beautiful cities in Germany (1981, 1985, 1990, 1997, 2005), Scotland (1982), Belgium (1983), The Netherlands (1984, 1989, 2004), Israel (1986), Norway (1987), Italy (1988), Hungary (1991), Belgium (1992), Egypt (1993), Spain (1994, 2001), Czech Republic (1995), Austria (1996), Turkey (1998), Poland (1999), Slovakia (2000), Australia (2002), Portugal (2003), Greece (2006), Dominican Republic (2007) and the United Kingdom (2008). In 2009 the conference will be held in Budapest (Hungary), and in 2010 in Galway, Ireland..

ANXIETY, STRESS, AND COPING

STAR has its own international journal, which is included in the membership fee. The journal provides 5 issues a year dealing not only with the assessment of anxiety, stress, and coping but also with related topics such as the antecedents and consequences of stress and emotions. While the journal will be open to a diversity of articles, it will be interested primarily in (1) well-designed, methodologically sound research reports, (2) theoretical papers, and (3) interpretive literature reviews or meta-analyses. However, case studies, clinical, therapeutic and educational articles that contribute to furthering research and theory will also be published.

The chief editors are **Aleksandra Luszczynska** and **Joachim Stoeber**. The book reviews editor is **Erica Frydenberg**.
